Radio Interview Features DTIC's Information Analysis Centers

[DTIC Communications Team](#)

11 Sept 2013

Fort Belvoir, VA - The Director of the Information Analysis Centers (IAC), Christopher Zember, was recently interviewed about the program on Federal News Radio (www.federalnewsradio.com). IACs, research and analysis organizations chartered by the DoD and operated by the Defense Technical Information Center (DTIC), help researchers, engineers, scientists and program managers utilize existing scientific and technical information. Zember talked about the value of IACs, the history of the program, how the program supports DoD's Better Buying Power Initiative and future plans.

Check out the interview, "Information Analysis Centers work to preserve institutional knowledge within DoD," <http://www.federalnewsradio.com/885/3436728/On-DoD-Information-Analysis-Centers-work-to-preserve-institutional-knowledge-within-DoD>

The mission of the IAC Program is to "collect, analyze, synthesize, produce, and disseminate worldwide Scientific and Technical Information (STI)." <http://iac.dtic.mil/>

DTIC's mission is "to provide essential technical RDT&E information rapidly, accurately and reliably to support our DoD customers' needs."

A DoD Field Activity, DTIC is under the leadership of the Under Secretary of Defense for Acquisition, Technology and Logistics and reports to the Assistant Secretary of Defense for Research and Engineering.
